<i>P349/PR339</i>	6cm	18.5cm

FRONT

BACK

The above dimensions are based on the smallest size garment offered on page 1 of the data sheet. The available branding area will become gradually bigger on the larger sizes. The dimensions are the maximum branding area available and logos should be scaled smaller to fit within. Any additional branding will reduce the garments visibility performance and excessive branding could render the garment non-compliant. Branding must not encroach on the reflective tape.
